Patient Education

Message from a Perigon Pharmacist

"IBSRELA side effects are most common during the first few months. We're here to support you through this initial period until the side effects become more manageable.

Message from a Perigon Patient

"Perigon Pharmacy is great to work with. They have wonderful staff. I appreciate their ongoing support as they have a team to text with, which is unlike my other pharmacy."

IBS Recommendations

Your doctor may recommend changes in your diet to help treat symptoms of (IBS) irritable bowel syndrome

Changes may include eating more fiber, avoiding gluten, or following a special diet called the low FODMAP diet. Different changes may help different people with IBS*

Drink plenty of water. Water keeps your GI tract lubricated and can help treat or prevent constipation**
